Welcome to the Newturf Grasshouse November Newsletter.....

Newturf has recently been involved with some exciting projects:

Federation Square – Our most popular synthetic grass, tru-lawn, has been laid in two stages and is certainly softening the original hard landscape. The positive response has been overwhelming. We are continuing to work with the Melbourne City Council to identify additional areas for installing tru-lawn in Federation Square.

The Lost Dogs Home – from all reports the dogs are loving the new surface on the training ground. Tru-lawn has transformed the site to a more dog-friendly environment – urine drains through the turf surface and faeces can be removed easily.

Even though we have had good rainfall in October, the heat of summer is now upon us and lawns will soon return to weeds and dirt – just in time for Christmas Day.

But Newturf can change that picture.

Just imagine having Christmas dinner with your family looking out over your lush green lawn. However, to realise this dream, you will need to act quickly. Christmas is now less than seven weeks away and our books are filling fast, so call our office now to arrange an installation date. Then you won't need to dream how wonderful your lawn could look on Christmas Day – it will be a reality.

Balcony

We are seeing an increased demand for laying turf on non-traditional surfaces – balconies, decks, bistro table tops and even shop floors. You are only limited by your imagination. Artificial turf provides a soft underfoot surface, requires very little maintenance and is pleasing to the eye.

So do away with that yearly decking oil chore and those hot glaring pavers - install artificial grass. Call our office now or drop in to discuss your project.

In our last newsletter, we mentioned that we were shortly moving to our new office at Unit 2, 347 Bay Road, Cheltenham. There will be no change to our phone numbers. We can now advise that we will be relocating end November 2009.

Sub Lease Available

The sub-lease of our current Malvern address is still available. Call our office and speak to David to discuss the details.

Newturf Grasshouse 675 Dandenong Road Malvern Vic 3144
relocating to Unit 2, 347 Bay Road Cheltenham Vic 3192 end Nov 2009
